(a) Multimodal portable tank transport

Despite the progress made on tanks for gases with critical temperatures below 65 °C (see ST/SG/AC.10/C.3/30/Add.1), the Sub-Committee at its last session was of the opinion that it would not be possible to reach a final conclusion at the Committee's session because ISO work on standards for gas cylinders had not yet been completed. The Sub-Committee asked the Committee to continue the work during the next biennium (see ST/SG/AC.10/C.3/30, para. 18, and item 5 of this agenda).

The Sub-Committee developed guidelines for assigning portable tanks requirements to substances of Classes 3 to 9 and revised the tank coding system and the assignment of tank codes accordingly.

(a) Global harmonization of systems of classification and labelling of chemicals

(i) *General*

The Inter-Organization Programme for Management of Chemicals (IOMC) Coordinating Group for the Harmonization of Chemical Classification Systems (CG/HCCS) has prepared a proposal to establish a mechanism for the implementation and follow-up of the Globally Harmonized System (GHS). This would consist of the reconfiguration of the Committee of Experts on the Transport of Dangerous Goods into a new United Nations Committee on the Transport of Dangerous Goods and the Globally Harmonized System with two sub-committees, one a Sub-Committee of Experts on the Transport of Dangerous Goods and the other a Sub-Committee of Experts on the Globally Harmonized System. This issue has already been preliminarily discussed by the Sub-Committee (ST/SG/AC.10/C.3/30, paras. 182 to 221). New documents have been transmitted as follows:

ST/SG/AC.10/1998/51 (Secretariat)	Proposal by the CG/HCCS, as agreed at its 22 June 1998 session
ST/SG/AC.10/1998/52 (CG/HCCS)	Proposal for terms of reference
ST/SG/AC.10/1998/43 (Austria)	Terms of reference and rules of procedure
ST/SG/AC.10/1998/41 (Argentina)	Reconfiguration of the Committee

(ii) *Health hazards and hazards to the environment*

The Committee will be informed on the progress made by the Organization for Economic Co-operation and Development (OECD) in developing classification criteria for toxicity, corrosivity and hazard to the environment. The Committee may wish to consider the suitability of the proposed criteria for use in transport of dangerous goods regulations. The Sub-Committee's debates on this subject have been recorded as follows:

ST/SG/AC.10/C.3/26, para. 122

ST/SG/AC.10/C.3/28, paras. 160-170

ST/SG/AC.10/C.3/30, paras. 201-215

These issues had also been discussed by the Committee at its eighteen session (December 1994) (ST/SG/AC.10/21, paras. 123-138) and at its nineteenth session (December 1996) (ST/SG/AC.10/23, paras. 154-158).
For hazard to the environment, the following documents remain on the agenda:

ST/SG/AC.10/R.473 (Germany)

ST/SG/AC.10/C.3/R.635 (United Kingdom)

ST/SG/AC.10/C.3/R.661 (Argentina)

3. ACTIVITIES RELATED TO THE IMPLEMENTATION OF AGENDA 21 (cont'd)

(a) Global harmonization of systems of classification and labelling of chemicals (cont'd)

(i) *General* (cont'd)

ST/SG/AC.10/C.3/R.707 (Argentina)

ST/SG/AC.10/C.3/R.708 (United Kingdom)

(iii) *Physical hazards*

The Sub-Committee, in cooperation with ILO, completed its work on proposals for a globally harmonized system of classification of chemicals presenting physical hazards, except for the flammability of aerosols (see report of the UN/ILO Working Group on the Harmonization of the Classification Criteria for Physical Hazards (ST/SG/AC/10/C.3/28/Add.3)). The Committee may wish to consider whether the UN/ILO Working Group should be reconvened during the next biennium for the flammability of aerosols (see SG/SG/AC.10/C.30, paras. 216-217), on the basis of the following background documents:

ST/SG/AC.10/C.3/28/Add.3

ST/SG/AC.10/C.3/1997/27 (Chairman of the Working Group)

The Committee may wish to note that ILO has approved the establishment of a working group on the harmonization of chemical hazard communication systems. The terms of reference of the group are reproduced in document ST/SG/AC.10/1998/50.

(b) Hazardous wastes

At its fifteenth session, the Sub-Committee took note of the decisions of the 4th Meeting of the Conference of the Parties to the Basel Convention, in particular with respect to the classification of hazardous wastes. The Sub-Committee felt that to ensure a continued compatibility between Annex III characteristics and the UN Model Regulations criteria, the globally harmonized classification presently being developed should be taken into account under Annex III of the Basel Convention.
